

PDF can't be created

If you are the **site owner**:

- Make sure that your page uses the latest version of the [Save to PDF Link](#) code.
- Try to add the following line to your web page's <head> section:

```
<meta name="referrer" content="origin" />
```

If you are a **visitor**, you can convert the web page to PDF manually using this [HTML to PDF](#) online tool.
